Dr. Stephen Schuster, a third-generation El Paso ophthalmologist, was named by LaserVision as one of the top five surgeons in achieving excellence in refractive surgery.

The national recognition, from a network of 800 surgeons, is one of a long list of awards that Schuster has received over the years for this medical practice.

"I opted for ophthalmology as a specialty because it allows me to diagnose a patient's problem by looking at the eye," he said.

Schuster is certified by the American Board of Ophthalmology and a fellow of the American Academy of Ophthalmology. He has published articles in medical journals.

He is a member of the El Paso County Medical Society, Texas Medical Society, Texas

Ophthalmological Association, American Society of Cataract, Refractive Surgery, American Academy of Ophthalmology, and the International Keratorefractive Society, among others.

He is a founding member of Sierra Medical Center, and his grandfather, Dr. Michael P. Schuster, was a founder of Providence Hospital.

Schuster's office is at 1700 Curie, Suite 2100; 533-3461.
